PROFESSIONAL EXPERIENCE

Paygreen / Lemonway (Fintech) - Frontend Developer

📍 Rouen (France) / Fintech 📅 March 2024 - Today

- Front-end Developer in an autonomous squad (2 developers), working closely with product and back-end.
- Complete redesign of the client/admin back-office UI and overall UX improvements.
- Major refactoring of the React application and migration to the latest version of Chakra UI.
- Design and delivery of end-to-end front-end features in production, used by ~5,000 monthly users.

We Invest (PropTech) - Backend Software Engineer

📍 Bruxelles (Belgium) 📅 May 2023 - November 2023

- Software Engineer Intern on the core business monolith using Domain-Driven Design (DDD).
- Executed a project to optimize real estate visuals with AI, based on ControlNet with Depth Map, improving image quality and consistency.
- Developed features using NestJS, GraphQL, and PostgreSQL.

Freelance - Full-Stack Developer

📍 Remote (Le Havre) 📅 May 2019 - March 2021

- Designed and delivered 5 complete web projects, from requirements analysis to production deployment.
- Handled deployment and operations: OVH hosting, server configuration, DNS management, deployment, and maintenance.
- Full-stack development including architecture, API, business logic, and user interfaces.

EDUCATION

ESIGELEC - Computer Engineering Degree

📍 Technopôle du Madrillet - Rouen 📅 2020 - 2023

Université du Havre - DUT in Computer Science

📍 Université du Havre 📅 2018 - 2020
